Re: Partial Notice to Proceed with Buckeye Xpress Project Activities

Dear Mr. Jackson:

I grant your April 21, 2020 request, as supplemented on April 22, 2020, for Columbia Gas Transmission, LLC (Columbia) to commence certain construction activities associated with the Buckeye Xpress Project. Specifically, Columbia may begin construction activities from milepost 28.3 to 29 (including variance to shift the centerline within the current certificated workspace at this location to avoid mine spoil piles identified through geotechnical investigations).

In considering this notice to proceed, we have reviewed your Implementation Plan filed on January 29, 2020, and the best management practices described in your application and subsequent filings. Based on our review, Columbia has provided the information necessary to meet the applicable conditions of the Commission's January 23, 2020 *Order Issuing Certificate and Approving Abandonment* (Order) in the above-referenced docket for this construction activity. In addition, we have confirmed the receipt of all federal authorizations relevant to the activities approved herein.

I remind you that Columbia must comply with all applicable remaining terms and conditions of the Order. If you have any questions, please call Kimberly Poli, Environmental Project Manager, at (202) 502-8406.

Sincerely,

Kimberly Poli
Environmental Project Manager
